- Categories: Services
- Manufacturer: Public Works Compliance Advisors

DESCRIPTION

Similar to our broad-based public works seminars, this online training is specifically aimed at your company's State or Federal compliance needs. Here, we take the approach as if you and your staff are unfamiliar with the nuances of public works compliance – from beginning to end. We review public works law and the application of the DIR's mandated procedures pertaining to project documents, wage determinations, fringe benefits, apprenticeship requirements and much more.

This covers State DIR or Federal Davis-Bacon compliance.
